

IS THERE A HEIGHT, WEIGHT OR AGE RESTRICTION?

Participants must weigh less than 250 pounds. We suggest that participants are a minimum of 48" tall for the ropes courses and zip lines and that participants have the ability to utilize the safety equipment and navigate the courses independently. The courses are for ages 5 to adult. However, for ages 5-9, 10-11 and 12-13 there are restrictions on specific courses available for their use. The purple, yellow, green and blue courses have requirements of parent/adult supervision or participation depending on the age bracket and the course being used. For example, ages 7-9 can use the yellow course with supervision but need to be accompanied by an adult on the green courses (1 adult per 2 children). You must be 10 years of age to use the blue courses with adult participation. Whenever adult participation is required, the 1:2 adult to child ratio must be met. See supervision requirements chart here.

Unlike the purple, yellow and green courses, the blue and black courses are very challenging.
